With over 70 years of research and development, NT-MAX is an environmentally safe and effective commercial grade septic system treatment which cleans clogged septic and drainfield systems, eliminates odors and restores full septic system function. NT-MAX is a super concentrated bacterial blend specifically designed to provide maximum digestion and liquefaction of organic wastes found throughout the tank, D-Box and leachfield. With its powerful digestion properties, NT-MAX eats away at blockages and allows effluent to once again filter through the soil - thus alleviating the clogging. Wet spots disappear, odors cease and free-flow is once again restored.

*Additional information

100% Safe and ozone friendly! NT-MAX bacterial and enzyme cultures are laboratory tested and guaranteed 100% non-hazardous. NT-MAX is completely safe to humans, pets, plants, livestock, plumbing and the environment. Bio-remediation is a rapidly growing key element in solving wastewater issues while remaining earth friendly and people safe. Bacterial enzyme formulas were used in the Galapagos Island cleanup in 2001 as well as the Hurricane Katrina Spills of 2005.

NT-MAX digests and degrades blockages, sludge, vegetable matter, protein, fats, oils, grease and bio-mat throughout your entire system and eliminates the need for repetitive and frequent pump-outs. NT-MAX quickly multiplies when contacting water and digests up to 100 pounds of pipe blocking sludge per day while freeing up soil and gravel in your field that has been heavily compacted over the years. NT-MAX breaks down and absorbs sludge blockage that restricts your systems overall handling ability.
Our cultivated bacteria strains are the highest quality and contain the most bacteria per gram counts available on the commercial market. Highly specified hand picked strains are specifically designed to eliminate blockages quicker, faster and better than all other leading brands.

NT-MAX contains specifically formulated strains of beneficial bacteria that thrive on the grease, soaps, detergents, food wastes, toilet tissue, and other organics clogging your septic system. Once NT-MAX enters your septic system, our superior cultures go to work immediately, eating and digesting all organic matter and in turn remedying clog and backup problems. Our ever multiplying hungry strains double in numbers roughly every 20 minutes to rejuvenate beneficial bacterial counts throughout your system that has been killed off everyday use of household products such as soaps, bleach, paints, cleaners and other chemicals.

In weakened or suffering system, fatty odorous acids buildup and are responsible for the excessive smell that goes hand in hand with failing systems. NT-MAX gets to work right away at digesting and breaking down these fats and converting them into harmless water and minerals where they later absorb into the soils below your Drainfield. Once the acids are digested, the smell goes away permanently!

The NT-MAX liquid shock treatment is designed to give maximum opportunity for total drainfield restoration by quickly and aggressively digesting all organic matter found throughout your entire system. NT-MAX liquefies solids and assures that only liquid is allowed to pass out of your tank and into your digestion system. NT-MAX maximizes drainage and the results are a smoother running, more efficient system. It reverses years of sludge and organic build up in the drain field and most importantly, it prevents you from ever having to have your drain field unclogged or replaced. Drainfield replacement can be extremely costly and is in most cases, absolutely unnecessary.

NT-MAX activates immediately upon hitting water! Both the liquid and powder formula can be added directly to you D-Box, Tank or commodes. The Bacterial Enzyme reaction will start working against odors instantly and should create a noticeable change in just a number of days. As odors disappear, bacteria and enzymes continue to rapidly multiply and quickly digest sludge, oils, fats, grease, pulp and other organic matter. For more very severe problems in the tank and leach field, higher doses or longer corrective periods may are required. Most systems see a reduction in wet spots and odors within a few days and complete alleviation within 1 to 2 weeks time.

The first thing you will notice is that the odors go away while wet spots, slow drainage and gurgling sounds normally disappear soon after. As NT-MAX clears the years of buildup in your lines and field, your entire system will be fully restored to like new condition! NT-MAX is highly resistant to all common household chemicals such as bleach, detergents, paints, soaps, cleansers and other household products that normally kill off the beneficial bacteria in your system.

Your system should generally be checked by a professional one a year. Septic systems are a relatively simple design but mechanical problems do occasionally occur. When used as directed, NT-MAX will reduce or eliminate the need for frequent pump-outs, since a regular addition of healthy bacteria will continually digest solids allowing only effluent into the drain or leach field. With regular bacterial maintenance, most systems will never again require pumping! Depending on your family habits, tanks should be pumped for un-dissolved solids that cannot be broken down such as plastics and metals and yearly licensed inspections are recommended.

THE **BIO-112 HEAVY SLUDGE DIGESTER** IS FORMULATED FOR THE TREATMENT OF RESIDENTIAL, HOTEL AND COMMERCIAL SEPTIC SYSTEMS, GREASE TRAPS, SLOWLY RUNNING DRAINS, FLOOR DRAINS AND PORTABLE TOILETS.

BIO-112 IS THE LATEST TECHNOLOGICAL DEVELOPMENT IN WASTE TREATMENT FORMULATED BY THE SAME GROUP OF SCIENTISTS THAT HELPED CLEAN THE EXXON VALDEZ OIL SPILL.

THE ACTIVE INGREDIENT IN **BIO-SAFE ONE BIO-112 HEAVY SLUDGE DIGESTER** IS HIGHLY CONCENTRATED ENZYME FORTIFIED AEROBIC (OXYGEN SURVIVING) AND ANEROBIC (NON-OXYGEN SURVIVING) BACTERIA (550 BILLION BACTERIA/GAL.).

BIO-112 COMES IN LIQUID FORM, A 5 GALLON PAIL. 55 GALLON DRUMS ARE AVAILABLE VIA BULK ORDER. UNLIKE CHEMICALS, IT IS NATURAL, SAFE AND EFFECTIVE.

BIO-112
5+ YEAR SUPPLY
WHEN USED FOR MAINTENANCE
ADVANCED FORMULA
550 BILLION BACTERIA/GAL
STRONGEST SEPTIC
TREATMENT ON THE
MARKET

IN ANY APPLICATION, THERE IS A "SEEDING" EFFECT. THAT IS, THE MICROBES IN THE INITIAL DOSE GROW TO PROVIDE AN EVER INCREASING POPULATION, DIGESTING GREASE, PAPER, AND ORGANIC SEWAGE. THE **BIO-112 HEAVY SLUDGE DIGESTER** IS EASY TO APPLY. THIS IS THE STRONGEST TREATMENT AVAILABLE ON THE MARKET AND HAS PATENTED STRAINS OF BACTERIA THAT CAN COMPLETELY DIGEST GREASE AND ALL TYPES OF SEWAGE/SLUDGE.

NT-MAX is a powerful combination of 900 Billion safe, non-toxic and environmentally friendly microorganisms which are designed to completely restore clogged septic systems. NT-MAX Liquid Septic Waste Digester is Specifically Designed for the Complete Treatment of Residential, Hotel, Municipality, Industrial and Commercial Septic Treatment Stations. NT-MAX Quickly Attacks and Digests Years of Compacted Sludge, Grease, Grime and Bio-Mat Buildup in Tanks, Lines, Drainfields, Slow Drains, Agricultural Ponds, Grease Traps, RV Holding Tanks and Cesspool Collectors.

NT-MAX Liquid contains over 900 Billion powerful, highly concentrated bacterial strains that immediately digest and degrade blockages on contact. NT-MAX Liquid ships in 5 gallon containers, 55 gallon drums and 250 gallon totes. Drum and totes ship same day, please call for pricing. NT-MAX products are 100% safe around people, pets, lines, all plumbing and the environment and are safe on all septic systems

including spray head type, dual chamber and cesspool.

NT-MAX Liquid is the most powerful formula available in waste treatment and bioremediation. commercial grade bacterial enzyme septic treatment formulas were used to treat the Galapagos Island oil spill in 2001 and the hurricane Katrina Spills of 2005. we guarantee our products are by far the strongest available septic treatments on the market and are backed by over 70 years of research and development.
